HISTORIC AMERICAN ENGINEERING RECORD

REVLOC MINE, WASH HOUSE

HAER No. PA-235-B

HAER  
PA.  
11-REV.V,  
1-8-

Location: Southeast of Revloc between Cambria and Indiana spur and mainline, Revloc Vicinity, Cambria County, Pennsylvania

USGS Quad: Nanty Glo, Pennsylvania (1:24000)

UTM: 17 E.689540 N.4484100

Date of Construction: ca. 1940s

Builder: Bethlehem Mines Corporation

Present Owner: BethEnergy Mines Corporation

Present Use: Abandoned

Significance: The colliery at Revloc was among the most productive in Cambria County and remained in operation for over fifty years. This Wash House was constructed in the 1940s shortly after the Bethlehem Mines Corporation, a subsidiary of Bethlehem Steel, acquired the Revloc mine.

Project Information: In February 1987, the Historic American Engineering Record (HAER) and the Historic American Buildings Survey (HABS) began a multi-year historical and architectural documentation project in southwestern Pennsylvania. Carried out in conjunction with America's Industrial Heritage Project (AIHP), HAER undertook a comprehensive inventory of Blair and Cambria counties as the first step in identifying the region's surviving historic engineering works and industrial resources.

The results of this project have been published in Blair County and Cambria County, Pennsylvania: An Inventory of Historic Engineering and Industrial Sites (1990), edited by Gray Fitzsimons and produced by HABS/HAER for the National Park Service.
